

A heatmap visualization showing the frequency of errors across four linguistic categories (rows) and three error types (columns). The categories are 'Sem Amb.', 'Sintática', 'Semântica', and 'Lexical'. The error types are 'Corretas', 'Incompletas', and 'Incorretas'. The color intensity represents the frequency, with a color scale ranging from light blue (low frequency) to dark blue (high frequency). The 'Sem Amb.' category shows a high frequency of 'Incorretas' errors (108), while 'Sintática' and 'Semântica' show higher frequencies of 'Corretas' errors (15 and 31 respectively). 'Lexical' errors are most frequent in the 'Corretas' category (29).

Sem Amb.	12	0	108
Sintática	15	19	6
Semântica	31	3	6
Lexical	29	7	4
	Corretas	Incompletas	Incorretas
